

EDUCATION:

- ◆ Master Fine Arts' Art & Technology, University of Texas at Dallas
- ◆ Bachelor Fine Arts' photography, University of Texas at Arlington
- ◆ Dallas County Community College

SOLO EXHIBITIONS:

- ◆ 2008 *The Arena*, Visual Art Gallery University of Texas at Dallas, Richardson, Texas

GROUP EXHIBITIONS:

- ◆ 2011 *Portfolio Exchange*, Studio b, Seaside, Florida
- ◆ 2010 *Portfolio Exchange*, Magnolia Gallery, Dallas, Texas
- ◆ 2010 *DADA 25 Anniversary*, The Dallas Center for Contemporary Art, Dallas, Texas
- ◆ 2010 *Digital Art Los Angeles*, Los Angeles Center for Digital Arts
- ◆ 2010 *Times Twenty Plus (X20+)*, The McKinney Avenue Contemporary
- ◆ 2010 *Fort Worth Avenue Time Capsule Project*, Guerilla Exhibit Haley Henman Gallery
- ◆ 2009 *Digital Art Los Angeles*, Los Angeles Center for Digital Arts
- ◆ 2008 *Pocket Film Festival*, Pompidou Centre, Paris, France ::: June 13-15
- ◆ 2008 *Intersected*, Dallas Museum of Art, Dallas, Texas
- ◆ 2008 *Real Time*, The Dallas Center for Contemporary Art, Dallas, Texas
- ◆ 2007 *Intersected*, Dallas Museum of Art, Dallas, Texas
- ◆ 2007 *Annual members show*, The McKinney Avenue Contemporary
- ◆ 2006 *UTD/Texas Tech Exchange Exhibition*, Texas Tech University, Lubbock, Texas
- ◆ 2006 *Second Annual Erotic Art Show*, Canvas-Gallery
- ◆ 2006 *Annual members show*, The McKinney Avenue Contemporary
- ◆ 2006 *Sur de Trinidad*, Ice House Cultural Center
- ◆ 2005 *Annual members show*, The McKinney Avenue Contemporary
- ◆ 2005 *Gallery 171*, University of Texas at Arlington
- ◆ 2005 *Gallery West Annex Dedication Ceremony*, University of Texas at Arlington
- ◆ 2005 *1308*, Experimental Art Space
- ◆ 2004 *Salon de Photography*, UTA gallery 171
- ◆ 2003 *The 39-hour show*, Fort Worth Community Art Center
- ◆ 2003 *ELEMENTS*, University of Texas at Arlington Art Expo at the Fort Worth Community Arts Center

CURATOR OR JUROR:

- ◆ 2005 DREAMS: mixed media event organized by the University of Texas at Arlington, displayed at the public library De Soto, Texas (juror)

PRESENTATIONS & LECTURES:

- ◆ Lectures on professional photography and fine art topics presented at The University of Texas at Dallas, Richardson, Texas (2008).
- ◆ SPJ freelancing Seminar Panel on the photo side of freelancing, including negotiating prices, and copyright at UTA (2009).

PUBLICATIONS:

- ◆ BB (Harder Beat): a magazine about everything that rocks. September 2005, Vol. 13, Issue 141, page 7

SKILLS AND ACCOMPLISHMENTS

Develop innovative curriculum to instruct students, small groups and classes of more than 25 individuals.
Organize time, and resources to balance workloads and deadlines.
Use unconventional methods and resources to educate through web technologies and life experiences.
Recognize the need for appropriate pacing and delay time to ensure all students understand lessons.

EDUCATIONAL EXPERIENCE

Design, and implement online training for technical operations staff (Verizon Wireless 2001-2002).
Design, implement, and present training courses for console and call analyst to ensure uniform policies and procedures (PrimeCo Communications Corporation 1997-2000).

CERTIFICATES

Certified Domino Lotus Notes R4 Administrator.

TECHNICAL SKILLS

PHOTOGRAPHY AND LIGHTING: Experience with conventional photographic equipment from 35mm, medium and large format film cameras. Film loading, strobe and hot light systems and associated power packs, as well as digital SLR, medium to large format digital image capture systems. Photo lab technician responsible for chemical mixture of color, black and white processing, enlarger and printer maintenance in a high use environment with budget limits.

OPERATING SYSTEMS: Experience includes Windows 95, NT Workstation & Server 4.0, Windows 2000 professional, Windows XP, UNIX Lynx, Sun Solaris, AIX, and IBM Mainframe Z/OS.

SOFTWARE: Applications include Apache Web Server 2.0, and Lotus/Domino R4 Application Development 1, (Certified CLS) Lotus/Domino R4 system administrator, MSI-CERVE, CEOS gateway application, WAS 6 (Websphere Application Server), HTML, CSS, HTTP server concepts, Web Browsers, Final Cut Pro, Adobe Photoshop, and Macromedia Dreamweaver.

PROFESSIONAL EXPERIENCE

GONZO PHOTOGRAPHY

2002-PRESENT

Photographer/Occasional Adjunct

Conventional and digital photography --- portfolio contains aircraft interiors, catalog photography with J.C. Penny, and artist copy work. Conceptualize, develop, and refine original visual images and short narrative video designs. Collaborate with Intersect Art Collective Group in production and concept development for short narrative videos from found text using mobile handset devices. Senior engineer streaming video feed for Greater Dallas Legal and Community Development Foundation. Occasional Adjunct at DCCCD Mountain View Campus, and TCC NW Campus teaching accredited courses in art appreciation and digital arts photography.

BROADLANE GROUP

2010-PRESENT

(Technisource Consultant)

Sr. Systems Engineer

Install, maintain and support web-based applications and middleware software, working primarily with Oracle Weblogic Application Server, sharepoint, and other web application technologies. Perform configuration management for a Web Application environment including version control and change control.

Responsibilities include:

- ◆ Collaborate with application developers, architects, business and application teams to configure the Pre-Production and Production environments for the purpose of deploying new code.
- ◆ Validate successful installation and configuration of product components. Coordinate with product vendor for missing or faulty components. Obtain and install 3rd party software as required by the application software. Document the installation and chosen configuration parameters.
- ◆ Deploy ear, war and jar files to development and production on a Windows platform. For Oracle Weblogic versions 8.1, 9, and 10.3, as well as, Windows .NET IIS service.
- ◆ Assist in the development of a ITIL change management policy, and process, which provided scheduled outages and deployments department wide.
- ◆ Created applications run books and return to service procedures. Analyzed logs for root cause and recommended upgrades and patches where required to stabilize and increase system performance.
- ◆ Sharepoint administration and configuration

DELL/PEROT SYSTEMS

2008-2010

Systems Engineer, Systems Integration/Middleware Specialist

Install, maintain and support web-based applications and middleware software, working primarily with WebSphere Application Server, WebSphere/Weblogic Internet HTTPS Server (IHS), and other web application technologies. Perform configuration management for a Web Application environment including version control and change control. Responsibilities include:

- ◆ **Product Preparation, Installation & Configuration:** Collaborate with application architect, business and application teams to configure the application environment. Validate successful installation and configuration of product components. Coordinate with product vendor for missing or faulty components. Obtain and install 3rd party software as required by the application software. Document the installation and chosen configuration parameters.
- ◆ **Patch Management:** Research, obtain and apply latest patches for product in coordination with the application architect. Validate successful installation and configuration of patches. Coordinate with vendor for patch issues and solutions. Monitor and performance tune for optimal operational efficiency. Install and configure performance and monitoring tools as documented in the IS Catalog. Manage performance in terms of run-time improvement recommend changes when appropriate.
- ◆ **Fault Resolution:** Classify each fault according to the standard fault severity rating. Provide fault isolation, diagnosis and resolution coordination; where possible, apply fault correction or workaround. Coordinate activities of third party support where applicable. Research, review and recommend alternatives to prevent future outage.

DEPOSITORY TRUST & CLEARING CORPORATION

2004-2008

Systems Engineer, Web Technologies Group

Design, test, implement, and maintain organization's Web systems and software. Responsible for the evaluation, acquisition, installation, and certification of corporate Web technologies, responsibilities include:

- ◆ Technically configure, manage, tune, and implement Websphere Architecture according to established standards.
- ◆ Work efficiently with technical staff to identify and troubleshoot moderately to complex technical delivery issues, and resolve or escalate these issues to senior staff.
- ◆ Perform routine application code and content migrations when necessary.
- ◆ Act as a technical escalation point for junior staff.
- ◆ Give guidance to junior technicians.
- ◆ Respond to emergency web application outages; identify and document causes of outages.
- ◆ Participate in infrastructure certification tests to identify potential web application or infrastructure issues.
- ◆ Creating standards for deploying Web based applications.
- ◆ Evaluate E-business requirements.
- ◆ Recommend implementation approaches and active support development and testing.
- ◆ Ensure High Availability of Corporate Web Applications.
- ◆ Formulation and delivery of Web Application Solutions.
- ◆ Integration of Web Systems Architecture with other existing DTCC Systems.

VERIZON WIRELESS

2000-2002

(Formerly PrimeCo Communications)

Senior Technical Analyst, Data Operations Center

Maintained 99.99 % availability of Information Technology provisioning infrastructure on a 24x7 basis. Managed data center provisioning operations.

- ◆ Resolved operating system and application problems affecting data flow.
- ◆ Coordinated with other departments in planning, development, and implementation of network TCP/IP and/or service enhancement projects.
- ◆ Recommended necessary growth to management due to increased market share.
- ◆ Documented standard practices into detailed procedural documents.
- ◆ Supported the development group in the implementation of new features into production.
- ◆ Provided and administered the testing environment for the development group.
- ◆ Ensured functionality of nine productions, nine fail over and seven test PDU's.
- ◆ Completed P2K to VISION billing system conversion resulting in \$1,400,000 yearly savings to company.
- ◆ Configured all provisioning processors supporting engineering upgrades to ECP (executive cellular processor), OMP (operations and maintenance platform) switching, and Glenayre voice mail systems utilizing network TCP/IP model.
- ◆ Implement training curriculum to assist 1st and 2nd level support.

MILITARY: Honorable Discharge U.S. Navy
